Architecture Design &
Implementation Services

Solution:
McAfee Endpoint
Protection, Endpoint
Encryption, Web Gateway,
Network Security Platform

SECURITY CHALLENGE

- External security review and detailed assessment called for improved cybersecurity defenses
- Attacks against other regional healthcare facilities heightened concern about protection
- Need no-hassle procurement and integrated security solution
- Need advanced protection, detection, and remediation from cyber threats

KEY RESULTS

- Provisioned and secured preferred pricing for software licenses
- Fast, smooth deployment of McAfee applications
- Fully integrated endpoint and network solution
- Improved reporting and reliable, proactive defenses against escalating cyber threats

BUSINESS BENEFITS

Architecture Design & Implementation Services

- ISA leveraged a long history with the client, extensive experience in healthcare sector, and Platinum level partnership with McAfee to scope the best security solution for the hospitals and medical centres.
- ISA experts worked closely with McAfee to help deliver fast, smooth implementation and full knowledge transfer.
- Installed McAfee ePO to simplify endpoint management and reporting.
- Delivered personalized, onsite services complemented by remote consultation to ensure success.
- Completed implementation now protects over 11,000 devices and network components, embracing suite of best-in-class McAfee solutions including McAfee Endpoint Protection and Encryption, McAfee Web Gateway, and McAfee Network Security Platform (featuring IPS).
- Seamless ordering and licensing process, delivering preferred pricing.

Improved Security Maturity & Governance

- Client now enjoys an integrated, single-vendor cybersecurity solution at a time when healthcare is under unprecedented cyber attack. Sites are protected from the endpoint to the network to the data centre.
- Client successfully responded to cybersecurity audit recommendations, achieving an important milestone in continuing security maturation program.
- ISA provides regular health checks to ensure reliable and efficient operations.

ABOUT ISA & MCAFEE

ISA Cybersecurity is Canada's leading cybersecurity-focused company, with nearly **three decades of experience** delivering cybersecurity services and people you can trust.
